

### REMARKS

The applicants respectfully disagree with the Examiner's rejections set forth in the present office action. However, desiring to expedite the issuance of a patent for the present invention and in view of the claims already allowed by the Examiner, the applicants have amended claims 1 and 32 in accordance with language from allowed claims 21 and 33. The applicants submit therefore, that as claims 21 and 33 have been allowed so now should claims 1 and 32 also be allowed. No remaining grounds for rejection or objection being given, the claims in their present form are asserted to be patentable over the prior art of record and in condition for allowance. Therefore, allowance of this case is earnestly solicited.

The Examiner is invited to contact the undersigned, if such communication would advance the prosecution of the present application. Lastly, please charge any additional fees (including extension of time fees) or credit overpayment to Deposit Account No. **502117 -- Motorola, Inc.**

Respectfully submitted,  
R. Crocker et al.
